Complete 6-Month

UI/UX Design

Training Program

Course Overview

Our comprehensive 6-month UI/UX Design Training Program is meticulously designed to transform aspiring designers into industry-ready professionals. This intensive program combines theoretical knowledge with hands-on practical experience, ensuring graduates possess both the creative vision and technical skills demanded by today's digital landscape.

Phase 1: UI Design Mastery (Months 1-3)

Focus on visual design principles, interface creation, and modern design tools

Phase 2: UX Design Excellence (Months 4-6)

Emphasis on user research, experience design, and usability optimization

UI Design Phase (Months 1-3)

► Professional Software Training

- **Adobe XD** – Interface design, interactive wireframing, and user journey prototyping
- **Figma** – Modern collaborative UI design, component systems, and realtime prototyping
- **Sketch** – Professional UI design, symbol libraries, and comprehensive design systems

► Additional Software Training

- **Adobe Photoshop** – Advanced photo editing, image manipulation, and digital graphics creation
- **Adobe Illustrator** – Vector graphics mastery, logo design, and scalable icon creation

Extended Tool Proficiency

Design & Prototyping

- Principle (Advanced animations)
- InVision (Collaborative prototyping)
- Marvel (Rapid prototyping)
- Zeplin (Design handoff)

Advanced Prototyping

- Framer (Interactive prototypes)
- ProtoPie (Sensor-based prototyping)
- Origami Studio (Complex interactions)
- Lottie (Animation integration)

Comprehensive Curriculum Highlights

► Professional Software Training

- **Website Design Excellence** – Responsive layouts, engaging landing pages, and e-commerce solutions
- **Mobile App Design** – iOS/ Android design guidelines, mobile-first approach, and platform optimization
- **Design Systems Creation** – Component libraries, comprehensive style guides, and scalable design frameworks

UX Design Phase (Months 4-6)

► Professional UX Software & Tools

- **Figma/Adobe XD** – Advanced user journey mapping, detailed wireframing, and interactive prototyping
- **Miro/Mural** – Collaborative research methodologies, mind mapping, and ideation workshops
- **Maze/UsabilityHub** – Comprehensive user testing, validation studies, and analytics interpretation
- **Notion/ Airtable** – Research documentation, project management, and data organization

Extended UX Tool Proficiency

Testing & Analytics

- Hotjar (User behavior analysis)
- Crazy Egg (Heatmap insights)
- Google Analytics (Performance metrics)
- Optimal Workshop (Card sorting)

Collaboration & Management

- Slack (Team communication)
- Asana (Project management)
- Trello (Task organization)
- Monday.com (Workflow management)

Advanced UX Curriculum Highlights

- **User Research Excellence** - In-depth interviews, comprehensive surveys, and persona development
- **Information Architecture** - Strategic site mapping, intuitive card sorting, and content organization
- **Usability Testing Mastery** - A/B testing methodologies, user validation techniques, and data-driven insights
- **Journey Mapping Expertise** - Detailed user flows, comprehensive experience mapping, and touchpoint analysis
- **Interaction Design** - Sophisticated micro-interactions, engaging animations, and seamless transitions
- **Accessibility Design** - WCAG compliance, inclusive design principles, and universal usability
